New Book Published Explaining How Luxembourg Institutions Work

On Tuesday evening, Marc Feyereisen and Brigitte Louise Pochon hosted an event at the Cercle Munster in Luxembourg-Grund to launch their book entitled "L'ETAT DU GRAND-DUCHE DE LUXEMBOURG" published by Promoculture Larcier.

The new 776-page tome outlines how the Luxembourg state institutions (from the state council to the parliament and municipalities) function, the powers of the Grand Duke, the legislative process, the role of the financial regulator and administrative jurisdictions.

The comprehensive publication includes a historical approach and an analysis of recent evolutions and a European perspective. It is aimed at students who are studying for law exams, as well as lawyers, civil servants and others working in Luxembourg, as well as anyone wanting to better understand the functioning of the Luxembourg institutions.

"L'ETAT DU GRAND-DUCHE DE LUXEMBOURG" is available for €120 (ISBN 9782879747354).

Many people attending the launch reception stayed on afterwards for a meal.
